“Kathy was the most warm soul I’ve ever met. She worked at my family Dr office. She was always so gracious in taking care of me and my family. And enjoyed seeing our children grow up to be adults. She always complimented me and we loved to giggle because I always wanted more glasses than I could afford. If I called she knew my voice and always asked about the kids by name. I will miss seeing her at the office but I’m sure glad my family got to know her spirit. What a Wonderful Lady ☐
