I would like to pay tribute to Patricia's life with an unusual effort -to restore the car she purchased new in 1974. Patricia took incredible care of this car and I recently purchased it and would love to hear from any family members about Patricia enjoying it in the 1970's and 1980s. Thank you, Paul Cain email at: mrpcain@gmail.com

“ *What a shock to see Pat's name in the obituaries! I worked with Pat in the lab in the early 70's at St. Charles and have very fond, happy memories of those times with her. I remember one time in particular when she and I went to a bacteriology conference in Cincinnati. What a fun time! And yes, we actually did learn some things :) Pat was a beautiful, fun loving person and I feel blessed to have known and worked with her.*

“ *Though it's been years since I had seen Pat, I will miss her. I've thought of her often and wondered how to get in touch with her. I wish I'd found her before seeing her obituary. She was my mentor. She helped me so much through high school with my microbiology science project that I had started working on in junior high. I met her when part of my volunteering at St Charles Hospital was in the lab. She took me under her wing and worked with me even when I rotated to other departments. Her knowledge and coaching elevated my project immensely. I'll never forget her. We lost track of each other when I was in nursing school and she left St Charles. Please accept my sincere condolences for your loss.*

My whole name did not print - It's Beth (La Vigne) Buehrer. Pat would not have known my married name.
