“ I worked with Dr. Kahle at Mercy in Graduate Medical Education. He was a very kind man and I enjoyed having many discussions with him over the years. He was so very dedicated to the excellence of all the residencies and worked very hard to provide that excellence. I shall miss him and I know he will be missed among all that knew him. Rest in Peace Dr. Kahle.

“ I remember spending a lot of time with Bob up at Lake Seneca. He would often drive me there or back if I wanted to spend extra time. I remember watching him wind surf or take us on the boat for knee boarding. I also remember talking with Bob a lot about computers and even video games. He would do fun things like buy all the grandkids the loudest toys he could find each year. He always had something interesting he was doing or into.

We're keeping Kathy and everyone else in our thoughts and prayers.

“ Bob and I spent a lot of childhood time together, and I have enjoyed these memories over the years. Attempting to build floatable rafts on Hog Creek, looking for arrowheads, and making mazes and hiding spots in the horse weeds. The last time I saw Bob was our sophomore year at the Univ. of Dayton. It is interesting that he and I had such similar careers, mine in Neuropsychology and his in Behavioral Medicine. May the peace of the Lord be comfort to Bob's family.

“ Dear Kathy and family:

Love and prayers to you all. His presence here at Mercy is greatly missed already and I'm sure only the more so at home. May God comfort all of you. I take comfort knowing that Bob had one of the most sincerest and strongest face of anyone I've met. He is with the Lord and joi May God comfort all of you. I take comfort knowing that Bob had one of the most sincerest and strongest faiths of anyone I've met. He lived his Christian faith daily and I know that we have the Assurance of seeing him again.

I will miss the long conversations at work, yes, sometimes about medical education but also ranging from family, politics, religion, movies, Star Wars and gadgets. Truly a wonderful and fundamentally decent man!

I can only think of the hundreds of physicians who are caring compassionate and competent because Bob played a part in their training. And then multiply that times the thousands of people whose lives have been improved because Bob cared for their mental health needs or a physician he helped train did so.

What a legacy! And, what a good man.

“ Along with all of the memories of Uncle Bob spending time with us at Lake Seneca all those summers driving the boat while we toobed, and games of basketball in the driveway in Kalida during the holidays, the thing I think about above all of that is how he always believed in me. I am so grateful that he would always asked me if I was part of a church yet. He said " You will eventually realize its the only thing that really matters.". That was the last memory I have of him at Lake Seneca.
